

IX.4.5C-SYSTEM-DEF-RC PROGRAM FCINIT COMMAND DEF-RC

Command DEF-RC is used to define or redefine Rating Curves and modifies the following files in the order listed:

<u>File Name</u>	<u>Action Taken</u>
FCRATING	Add or update Rating Curve definition
FCRCPTR	Add or update pointer information for Rating Curve

Message Output

The first message printed before to the first file update is:

```
*** BEGINNING FILE UPDATE FOR RATING CURVE xxxxxxxx.
```

The last message indicating files have been successfully updated is:

```
*** RATING CURVE FILES UPDATED FOR RATING CURVE xxxxxxxx.
```

Error Recovery

There is currently no method for file recovery other than restoring the files from the most recent backup copy.
